  - 2.2.3 [--md](#)

## Synopsis

```
pod-render.pl6 --pdf bin/pod-render.pl6
```

## Usage

```
pod-render.pl6 [--pdf] [--html] [--md] <pod-file>
```

## Arguments

pod-file. This is the file in which the pod documentation is written and must be rendered.

## Options

### --pdf

Generate output in pdf format. Result is placed in current directory or in the `./doc` directory if it exists. Pdf is generated using the program **wkhtmltopdf** so that must be installed.

### --html

Generate output in html format. Result is placed in current directory or in the `./doc` directory if it exists.

### --md

Generate output in md format. Result is placed in current directory or in the `./doc` directory if it exists.
